

CIBSE Weather Files for Part L 2021 – ApacheSim method.

The software isn't picking up the 2016 CIBSE Weather Files for Part L 2021.

The 2016 TRY files are required and they need to be in the format London_TRY.epw. If you have purchased the "Current" 2016 CIBSE TRY files and they don't already have this format then rename them to match (see image below).

Place them in the "C:\Program Files\IES\Shared Content\Weather" folder.

Belfast_TRY	12/04/2016 04:02	EPW File	1,389 KB
Birmingham_TRY	13/04/2016 03:54	EPW File	1,392 KB
